

Criminal trial against Marinella Colombo and all the parents victims of the despoilment of their children by the German JUGENDAMT

**Corte Penale Milan – Via Freguglia n. 1

An unjustified political trial to legalise unjustified German methods

In a **civil** case of divorce in Germany, which is not yet judged on the merits, Italian judges want to hold – on behalf of Germans – a **criminal** trial against one of its fellow citizens, Mrs Marinella Colombo, who lives the same drama as all the foreign parents in Germany, when they part from a German.

Considering these facts:

- Germans denied Mrs Colombo the right to leave Germany for work purpose and to go to Italy, without any other reason than damaging the Italian economy. This is **illegal**, but the Italian authorities did not protest, they accepted it.
- **Germans** deliberately registered Mrs Colombo into the European Police Information system (Europol-SIS), **even before having ruled her case**, to criminalize her. This is **illegal**, but the Italian authorities did not protest, they enforced the arrest warrant.
- **When Germans** – according to the Haag Convention – illegally **demand**ed for the return of the children, the Italian authorities did not protest: they complied with the **demand**.
- The German lawyer Gebhard, who betrayed his Italian client (Mrs Colombo) has taken his oath to defend the German interests. Even in Italy, he defends German interest but not his Italian clients. This is **illegal** but the Italian authorities never protested.
- The German lawyer Strauss (the German parent's **lawyer**) misled the Italian authorities, (Court, central authority, Europol) falsifying a main document, turning the children's custody right which was in facts by Mrs Colombo, into a sole custody in favour of the German parent, just in order to request for the return of the children and to issue unjustified arrest warrants. This is **illegal**, **however** the Italian authorities do not protest; they go on cooperating with him instead of arresting him, condemning him and taking his lawyer's licence away.
- Even though the Highest Cassation Court denied the return of the children, until a new trial **reopens**, the Germans issued a new arrest warrant against Mrs Colombo. This is **illegal**. But the Italian authorities **did** not protest, they enforced it.

Considering all these facts and many others, that show, how German lawyers duly fool their foreign partners, how they deliberately **criminalize** foreign parents in such **civil** cases without having a ground to do so (see the open letter to Mr Berlusconi)¹, why they request for a return of the children without having a legal basis to do so, how their family Courts decisions are manipulated for the benefit of the Germans (Jugendamt), how they break European Law and the Italian Constitution, CEED conjectures on the real motivation of the Italian magistrates in holding a criminal trial **for the benefit of Germans** who lied, cheated and broke the Law, instead of holding it **against those** who lied, cheated and broke the Law?

Why is this trial actually going to be held?
