SCANDALOUS MODERN GERMANY

**Free the american citizen Kimberly Hines and her 4 months old baby immediately !
Please help all of us to stop the German cruelty and brutality**

Dear Mr President Obama,
Dear Mr President Napolitano

On friday the 6th of april 2012, the day before easter, Kimberly Hines, who lives in New York was jailed by italian authorities together with her 4 months old baby in the prison of Rebibbia, Rom, Italy, on request of the Judge **Luigi Varanelli** and the prosecutor **Luca Gaglio** from Milan.

Kimberly is mother of 2 other children, Stefano 8 and Alexandra 4. She is accused of having had contact by phone over a year ago with D.ssa Marinella Colombo, from Milan. Kimberly Hines, who spends regularly holidays in Italy (the father of Stefano is an Italian) knows Dr Marinella Colombo over the italian prints and medias. Both women share a same situation with most non-German parents – **mothers AND fathers** – ; Their children have been kidnapped **by the German JUGENDAMT, the German judges with the help of German solicitors**. As Germans do with every non-German parent, whatever his nationality or his gender.

Germany has a huge problem : its demography. Therefore Germans have organised their family laws and family justice system (the Jugendamt and the family Court) to retain and germanize any child from any non-German parent. They use these children to keep the workforce, the property and the legacy of their foreign parents within the country. To reach this purpose without drawing the attention of other states, Germans have placed their family justice under the control of a **plenipotentiary** local political entity : The **Jugendamt**.

It is the German **political family judge**, an allmighty **third party** and a **state's parent** which aim is to protect the *State-child* bond, even if the (non-German) *parent-child* bond should be completely deleted. Sitting two to one in front of the German judge, a foreign parent has lost his children, before the procedure has started. From a German point of view a court decision is only fair, when German interests are protected. Germans cooperate all together to defend the « *Kindeswohl* », the best interest of the community of Germans in child issues. Germans understand their « *German law above all* » (mein deutsches Recht über alles) as unique and universal. Therefore every mean is right for these unscrupulous German lawyers, judges and prosecutors to bring their criminal and xenophobic behavior against non-German parents in accordance to their German law : Lies, false accusations, discredit, threats, criminalization and the premeditated betrayal of the world's community.

Germans family judges rule systematically **one-sided** and **secretly** against the non-German parent. They create faits accomplis and make their decision « contradictory » later, when the Jugendamt has become third party of the trial. Germans make systematically use of their one sided **criminal law** in these cases of **civil matter** (§235 StGB) to criminalize the non-German in order to exploit the credulity of foreign police authorities (Europol, Interpol). According to this German law, the mere fact that a foreigner leave the country with his minor child, against the will of a German, turn any non-German parent to a « *Kriminell* » independently of any other consideration, facts and decision. This is the German *Rechtsnorm*, the rule, not the exception.

Mrs Hines was betrayed by the ruthless Germans 4 years ago. They stole her American daughter, Alex, as she was a baby. Accordingly to the Law of the GERMANS naturally. Alex never turned to her brothers in New York since. Even if her mother was not married with the German father. Without the help of the US Government that did not really understand the purpose of the German family justice and the function of the Jugendamt, alone against a state, that has organised his justice system to despoil any foreign parent's child, Kimberly stand not a single chance.

Same happened to Dr Marinella Colombo. As so many foreign parents in Germany, she wanted to leave the country, which is so unfriendly for families and foreigners. She got an offer for a well paid job in Milan (Italy). As she requested from the Court of Munich to rearrange the timetable for the visitations rights of the German father, the local staff appointed to protect the Kindeswohl (Jugendamt, lawyers, Verfahrenspfleger, Umgangspfleger, pseudo-expert, police, judges and prosecutors) started to **construct** arguments and to built false allegations, with a single purpose : To make her – the foreign parent – the bad parent, a criminal, in order to prevent her two young boys from leaving the country. This is the single purpose of the politically controlled family justice of the Germans. Mrs Colombo had the « physical » custody of her children, she maintained them. Because the German Court refused to make a final decision, she left the country.

Then, in summer 2008, an incredible story started, which led to the recent **unfounded political arrestation of Mrs Hines**, the day before easter 2012. Prosecutor Luca Gaglio is doing the job for the Germans, on the behalf his German colleague **Buckelmayer** from **Munich**. It is time, for the international community to stop this conspiracy and to take right actions against these people.

The inconsistency in the countless German procedures against Mrs Colombo is astonishing. For reason of convenience, which means to save the money of the German tax payers and to get from an outside jurisdiction the arguments Germans missed in their own jurisdiction to justify the despoilment of Mrs Colombo's children, Germans delegated the procedures to the Italians to then Procuratore Gaglio and his boss Mr Pietro Forno. Both have been ignoring consistently since any evidences brought, as following few examples :

- Mrs Colombo has been registered by the Germans **preventively** in the Europol System, even before she left Germany, at a time where the Court of appeal of Munich had not yet ruled her case.
- As Mrs Colombo left Germany, the German family judge transferred within **a couple of hours**, secretly and **arbitrarily** the parental authority to the German father, to accuse her treacherously of child's kidnapping and allow the **German prosecutor Bruecklmayer** to issue an arrest warrant, which has to be enforced by the foreign police forces, that is not allowed to check for what (**civil**) reason it was issued. They did same to Mrs Hines. They do same to every non-German who wants to leave Germany with his minor child.
- No matter if the German parent, as the holder of visitations rights, was not **authorized** to demand for the return of the children, the German authority (Bundesamt für Justiz, Bonn) did it for him and **betrayed** that way **deliberately** its Italian counterparts. They did it same with Mrs Hines, who was not married to the German father and consequently was the sole holder of **parental responsibility** according to the German law. They do it that way with any non-German, even if they have to lie and to betray.
- Documents sent by the German Jugendamt were blacked out in order to make them **unreadable**
- The *Corte di Cassazione* of Rome, the highest Civil Court in Italy gave right to Mrs Colombo as it confirmed that the removal of the children to Italy was **not unlawful**. Disrespectfully of any decision made outside their own jurisdiction, German authorities launched a second demand on return according to the Haag convention. Without awaiting the judgement from Rome, they instructed **the Italian police** (under the commandment of Prosecutor Gaglio) to catch the children and sent them back to the country of the German Kindeswohl. (Mrs Colombo took her children a second time to Italy, after they were unlawfully picked up at their school by the Italian police and sent to Germany)
- Independently of the above mentioned lack of legal grounds, Germans demanded from their Italian counterparts to bring two criminal lawsuits – without any legal grounds – against Mrs Colombo, twice for child abduction. Twice they demanded her extradition. The Italian Court rejected the first demand. A year later it, debating the second demand the Italian Court was upset to note that the disgusting Germans based their second request, on their first demand for extradition, that had been already judged in Italy. Even worse Germans issue international arrest warrants without having a national one, without holding a

trial against the foreigner, in order to keep him from taking the plane and work. They did same against Mrs **Hines**. They do same against any non-German parent who dare to claim his fundamental rights and leave this awful jurisdiction.

- To please the Germans, the Italian police **disguised as tourists** violated the sovereignty of its neighbor state, Slovenia, penetrated unlawfully in its territory to kidnap the children of Mrs Colombo on the behalf of the GERMANS and sent them to Germany
- Although the appeal against the second demand on return made by the Germans which is as much invalid as the first one, has not been decided yet by the Supreme Court of Rome, Mrs Colombo has been put now for over a year under severe house arrest, her phone and this of her lawyer are unlawfully wiretaped as she was a criminal, the computer of her friends and neighbours confiscated, even the wage of her brother, a bank director, seized ...

The list of right violations is endless. **What is this ?**

Germans lawyers can make false allegations, without any evidences, they can ignore facts and realities, they can purposely change things to suit themselves, they can behave like criminals and Mr Gaglio is wasting thousands or millions of Euros of Italian tax payers, wasting the time of hundreds of Italian civil servants to shadow, to criminalize, to arrest **innocent** parents, just to help his German counterpart, who lie and betray the world community deutsch-legal ?

Last year they started a smear campaign in prints and media against those parents who like **Mrs Kimberly Hines, D.ssa Marinella Colombo** and many others, started to inform publicly, worldwide, on the methods of the **terrific xenophobic** and nationalistic JUGENDAMT. Germans were bullying those parents by police summons. Germans attempt to silence them brutally. They seek for cold bloody revenge against anyone who tells to the outer world what is a Jugendamt and how they rule effectively justice behind the closed doors of their family Courts. Germans use our children for a hateful blackmail, as they do it regularly in court to keep us parents, our children, our money, our pension, our inheritance in their country under the cover of their legal means.

Mrs Kimberly Hines talked publicly about this matter. This is the most likely reason why Italians jailed her, just to satisfy the wish of some German official liars and furthermore to cover up the judicial debacle and blatant violations of rights described hereabove. Who will pay for all expenses caused by German lies ?

Mister President !

Please help us ! Please intervene ! Please help us checking German realities and facts !

Please help us sending an international committee of enquiry to Germany, to establish the truth of events, the truth on the Jugendamt in the case of Mrs Hines, Mrs Colombo and any other non-German parent who is trapped within this jurisdiction of the German Kindeswohl. Every nation is concerned when it has fellow citizens in this country. These issues are not a question of civil law any more, but of international policy. No country can recognize and enforce court decision of a state that has put his family justice under the supervision of a political entity (the Jugendamt), that has no constitution and that has declared child abduction and child trafficking a **moral and honest action** as long as it happens according to the law of the Germans.

Mister President !

Help us to get the 60 pages of the act of accusation **translated in English** at **German expense**.

Help us to free the American citizens Kimberly Hines and her 4 months old baby immediately !

Help us to free all children kept hostages by German authorities (Jugendamt) in Germany.

Help us to bring the German truth to light.

Here are the responsible Germans, who think that the entire world is at their command and have to obey their nationalistic law and lies. These people have a very strange understanding of justice and seems to consider **foreign** parents only as criminals. **Who can stop them ?**
